

WEDNESDAY EVENING JULY 12 18:2.

THE POPULIST Governor of Colorado, speaking in opposition to the proposed repeal of the Sherman silver bill, says: "If the money power shall attempt to sustain its usurpation by the 'strong hand,' we will meet that issue when it is forced upon us, for it is better infinitely that blood should flow rather than our national credit should be destroyed." "Silver or blood!" is thus the battle cry of Colorado, and in it nearly all the silver producing States and Territories join. Well, let the North and West fight it out. The South has had enough of fighting to last it for the rest of the century; and in such a contest as the proposed one many of her people would look on with feelings akin to that of the woman who witnessed a fight between her husband and a bear, and cried out "Go it, old man!" "go it bear!" as the phases of the conflict changed.

THE PHILADELPHIA Ledger says "Mr Cleveland is unfavorable to free trade, or to any thing like free trade." The Ledger is a most reliable newspaper, but, for the sake of the President, leaving that of all other people out of view, it is hoped that in the particular instance referred to, it may be incorrect, for Mr. Cleveland was elected by reason of the belief that he was favorable to free trade in at least the necessaries of life; and the shattering of that belief will do him no good, but much harm, not only in the hearts, but in the pockets of the men by whose votes he was elected.

THE NEW YORK Press says: "The fact that the bourbons have been able to discover only a few pension frauds, speaks volumes for the honor of the Union veterans and for the honor and vigilance of republican administration." such frauds have been discovered in one small city alone, that hundreds of pensions have already been stopped on the unnecessary destruction of mackthe ground of such frauds, and that the examiners have hardly commenced their work, the quoted remark referred to exhibits no decrease in the quality of cheek of the source from which it emanated.

THE PRESIDENT has disapproved the report of the examining board recommending Commander Johnson, U. S. Navy, for promotion, upon the ground that three or four years ago the Commander was recorded as having been sick from alcoholism. The quality of mercy should always, when possible, be conjoined with that of justice, and the history of this country shows that few of the brainiest men thereof have entirely escaped the sickness from which commander Johnson is said to have suffered at the time referred to.

THE RECORDS of the Postoffice Department show that in respect of both Presidential and fourth class postmasters, the removals under the late, for the same period, were greatly in excess of those under the present administration. And yet the democratic rallying cry during the last campaign was, "Turn the rascals out!" The retention of republicans in office is calculated to suggest the idea that the cry referred to was a false one, and that there were no republican rascals in office.

THE RICHMOND Dispatch says "a tariff for protection may be wrong, but it is not unconstitutional." And yet the Constitution provides that Congress shall impose duties, to pay the debts of the government and to provide for the defense thereof; and even the late Samuel J. Randall in a public speech, declared that a tariff solely for protection could not be supported on constitutional grounds.

Delegates Elected.

Floyd county yesterday elected nine delegates to the democratic State convention. Seven of these are for Tyler and two for O'Ferrall. This result is a surprise to the O'Ferrall leaders. Floyd was supposed to be an O'Ferrall

FIGHT IN VIRGINIA .- A battle occurred Monday night at Norton, Va., between the friends of Calvin and Herman Fleming and the officers of the law. The Fleming boys, who are accused of being implicated in the murder of the Mullins family on Cumberland Mountain with Doc. Taylor, now condemned to hang and in jail at Lynchburg, went to Norton and a fight en-sued between them and the officers. Herman Fleming was found near Norton Tuesday morning fatally wounded. J. Lee Greear, a merchant of Colburn, near Norton, was in the sheriff's posse, and was seriously if not fatally wounded. Later reports are to the effect that Herman Fleming is dead. The citizens are terribly determined and will enforce the law at all hazards. It is probable that at least four persons

were fatally injured in the affray.

FROM WASHINGTON.

[Correspondence of the Alexandria Gazette.] WASHINGTON, D. C., July 12.

Dr. Warner Holt of Missouri, who was dismissed by Commissioner Raum on March 3rd last from his position as clerk of class three in the pension of-fice, because he had stated to Representative Tarsney during the last Congress that pensions had been granted for baldness, was to-day reinstated, the substantial truth of the statement having been ascertained.
H. O. Evans of Ottumwa, Iowa, was

to-day appointed a chief of division in

the office of the 2d auditor. The report from Caddo, Indian Territory, published this morning, to the effect that Gov. Jones, of that Territory, had stated that the Choctaws, under sentence of death for murder, would surely be shot, is discredited at the Interior Department, Gen. Armstrong, the acting commissioner of Indian affairs, said to-day that he did not believe that Gov. Jones had made the statement ascribed to him, and further that he did not believe the Governor intended ever to shoot those under sentence except possibly one or two of the

most desperate ringleaders.

The Pennsylvania Railroad Company has acknowledged the receipt of the petition of numerous citizens of Alexandria and Fairfax counties, Vir ginia, and of this city, for extending the ranch it is now building from the Long, to the Aqueduct Bridge, to the Great Falls of the Potomac, and says it will take the matter under considera-

One hundred and twenty-seven fourth class postmasters were appointed to-day, of whom ninety-two will fill the places of removed republicans. The changes in Virginia were as follows: Brandy Station, Culpeper county, W. J. Parr, appointed postmaster, vice J. O. Fant, removed; Bucu, Dickenson county, J. P. Sutherland, vice E. Sutherland, resigned; Dublin, Pulaski county, C. L. Cecil, vice Jacob Anderson, removed; Hillsborough, Loudoun country, G. W. Wiley, vice J. T. Spates, 1emoved; Montgomery, Washington county, C. H. Rusk, vice W. K. Rusk, resigned; Tylers, Hanover county, E.

B. Chewning, vice C. D. Jones, resigned. Congressman Meredith of was here again to-day, but he didn't look as if he was having a pleasant time for while one office seeker was talking to him, another would be tapping his arm to attract his attention, while four or five others were watching him a few paces off. He had appointments with some ladies at the Metropolitan Hotel on the same sort of business, and even while on his way to see them, the male applicants followed him up the stair steps; and all this though he tells them it is impossible for him to get them places, as he is told at the departments that his district has a great deal more

federal patronage than it is entitled to. The American and Canadian governments are to form a joint commission In view of the facts that hundreds of to investigate the whole subject of possible the catch by protecting the spawning grounds and by preventing

The financial news from New York received here up to 2 o'clock to-day was as follows: Silver 71 cents an o ince; money on call 12 per cent.; stocks weak, falling, and with no immediate prospect of a rise, and banks still depositing bonds and thereby in-

creasing their currency.

Thomas Davis of Fauquier county, Virginia, a republican, who was removed last week from a minor position in the War Department, did not remain out of office long, as two days afterwards he was appointed to a place in the health office of the District of Columbia. Commissioner Ross, the socalled democratic member of the Dist ict commission, has a warm feeling for Virginia republicans.

Among those recently summoned to appear before the new examining board is a clerk in one of the departments is a clerk in one of the departments here doing full duty and receiving full pay therefor. He was also drawing a pension of \$72 a month for physical disability. He was loth to obey the summons, but had to do so. His pension has been reduced to \$17 a month.

A prominent democratic politician from one of the tide-water counties of Virginia, and a delegate to the democratic convention of his State, here today, told the GAZETTE's correspondent that he had been under the impression that the democratic majority of the U. S. House of Representatives had sustained Mr. O'Ferrall's course in the famous Noyes-Rockwell contested elec-tion case. This shows how well informed the average democratic politicians of Virginia are upon current mat-

ters of interest to their own State.

Mr. George E. Pickett of Virginia, son of the late Gen. Pickett of Vigina, son of the late Gen. Pickett, of Gettysburg fame, a clerk in the Interior Department, has recently been promoted from a \$1,000, to a \$1,200 clerkship.

Among the last consular appoint ments made was that of Henry Smith, an Alabama negro, to the port of Santos, Brazil, where the yellow fever is now prevailing, but he has not as yet sailed for his post.

THE CONFEDRATE REUNION .- Rev. Frank Stringfellow delivered the address at the Confederate reunion at Rocky Mount on the Fourth of July. The orator of the day was introduced by Col. George E. Dennis. The Franklin Times says:

"How the old veterans' faces beamed with joy and expectancy as he, one of their comrades, a comrade of the South, rose to welcome and address them! His grand face beamed with the emo-tion that filled his heart and made eloquent his utterences and, as the charionnotes of his voice floated over that vast throng of 5000 souls, and in simple and graphic style he gave the history of our nation's day of independence and d velt lovingly over the events of the wir, portraying so vividly that it be-cime word-painting, the courage, the endurance, the forbearance, the hero-ism and the patriotism of the Southern soldier there was not one in that vast throng too poor to do him reverence. 'Stringfellow, the Scout,' whose deeds of daring and whose heroic resolve had of daring and whose heroic resolve had inspired many hearts to great endeavor, in the days gone by, stood before them and the veterans hearts burned with sympathy. The old rebel yell went up to the very skies, cementing ties and friendships already formed in the days of the 'sixties.' Mr. Stringfellow's oration was filled with facts of historical interest to the South as wall historical interest to the South as well

as to the country at large, and we re-gret that we cannot reproduce it ver-batim et literatim." Ten more bodies have been found in the ruins of the cold-storage warehouse at Chicago. One of the bodies

was that of a woman.

MONETARY AND COMMERCIAL

NEW YORK, July 12.-Liquidations on an enormous scale characterized the market at the opening of the Stock Exchange this morn ing. There was a break of 1/2 to 2 per cent right through the list. The excitement ran high and the street is flooded with unfavorable rumors. The downward movement in stocks made further progress after the opening. When it was found that the rumors of financial disasters could not be confirmed a more hopeful view of the situation was taken and a sharp rally ensued. At 11 o'clock the market was quieter and steady in tone. After 11 o'clock the market was attacked again but the selling was not as heavy as at the opening. Prices receded 12 to 2 per cent Near midday there was another full and the pressure abated and a steadier feeling prevailed. Money is working closer, call loans having advanced to 20 per cent. At noon the market was feverish. BALTIMORE, July 12,-Virginia consols do 10-40s -; do 3s 6512.
